

REDLANDS STUDIOS

Conversion Special

Convert your precious, irreplaceable family and vacation VHS tapes onto long lasting DVD discs.

Instead of letting your memories fade away in those boxes of old home videos collecting dust in the back of your closet, why not have them transferred to Hollywood-style DVDs?

Unlike videotape, which degrades and loses quality over time, studios have estimated that DVDs can last 100 years or longer. DVDs are viewable from your living room DVD player or on your PC.

Transferring your irreplaceable tapes to DVD at Redlands Studios is a convenient and affordable way to preserve, organize and enjoy your memories.

**We can clean & repair
your damaged tapes!**

We can transfer these types of media to DVD:

**VHS, S-VHS, VHS-C, Hi-8, 8mm video,
Digital 8, MiniDV, and Betamax**
